Forecast for Tuesday 19 Sep 2023

Weather: Unsettled with rain, heavy and persistent throughout much of the day, especially on western and southern hills. Rain and drizzle turning lighter at times through the afternoon and into the evening with any brightness confined to the east of the park. Very windy with gales, locally severe on higher summits.

Chance of cloud-free hill tops above 600m: Near zero in west, 30% in east. Best chances during the afternoon.

Low cloud and visibility: Widespread cloud obscuring hills at 600m in west, but areas of cloud possible at 400m. Cloud more broken further east, with the best chance of clearer intervals during the afternoon. Moderate visibility for much of the day, and occasionally down to poor or very poor due to rain and drizzle.
